

We work one on one with clients to help them create their own private label clothing line.

In apparel production,

every detail matters.

We focus on the details so you can focus on your customers.

YOUR SUCCESS

Product Development & Sampling

At NAXIS Australia, product development is where ideas become garments. Our experienced technical and development teams manage the process from concept, pattern making and grading through sampling, fitting, construction and size development.

Supported by skilled sample rooms and close collaboration with our manufacturing and material partners, we can develop, refine and prepare products for production efficiently.

Our hands-on approach combines technical expertise, innovation, flexibility and speed, helping customers achieve the right fit, quality, construction and commercial outcome before moving into bulk production.

Manufacturing

- NAXIS AUSTRALIA is equipped to meet the growing international demand for apparel with the development of best practice methods. We have streamlined our capabilities for inspired solutions to valued clients in a challenging environment.
- We employ the latest technology, systems, process, facilities, and services to maintain our positioning as an industry-leading manufacturing service provider in an ever-changing & challenging local & global marketplace.
- This includes highly strategic techniques of lean manufacturing and management practices, ensuring resource minimization; with the objective of becoming responsive to our customer's product requirements and maximizing our production and manufacturing outcomes.

Quality Control & Assurance

Quality is a mindset — not simply a final inspection.

At NAXIS AUSTRALIA, quality is built into every stage of the product journey. We have adopted a **Total Quality Management (TQM)** approach, supported by strong systems, clear standards and continuous monitoring throughout product development and manufacturing.

We believe that a **defect is the result of an effect** — there is always an underlying cause. Our approach is therefore not only to identify defects, but to understand their root cause, take corrective action and prevent recurrence. This culture of continuous improvement helps us achieve consistent quality and reliable product performance.

From raw materials to finished garments, quality is carefully monitored through material and performance testing, pre-production controls, in-line inspections and final random inspections based on agreed **AQL standards**.

For us, **quality is everyone's responsibility**. It is a mindset shared across our technical, production, quality and manufacturing teams — with attention to detail at every stage.

We don't simply inspect quality at the end — we build it into the process from the beginning.

This commitment to Quality Control and Quality Assurance gives our customers confidence in every order and helps build the long-term partnerships that keep them coming back to NAXIS AUSTRALIA.

Logistics & Freight Solutions

At NAXIS Australia, we manage the journey from factory to your doorstep. Through our established global network of trusted, cost-effective and efficient logistics and freight service providers, we are able to evaluate different shipping options and identify the most advantageous solution for each order – balancing cost, transit time and reliability.

From shipping documentation and freight coordination to customs clearance and final doorstep delivery, NAXIS Australia manages every stage of the logistics process, helping ensure your goods move smoothly, efficiently and on time.

Compliance

We recognize that our customers are not only looking for quality and value, but also for partners with a good track record in social compliance. Our manufacturing facilities are committed to the highest degree of integrity in compliance with the applicable laws, regulations, and ethics that govern the company and the industry.

NAXIS AUSTRALIA Offshore manufacturing facilities participated in various independent audits that review our compliances, and we are proud to achieve excellent results.
